LKYSPP offers a unique learning environment by bridging the gap between prevailing theories in the West and best practices emerging in the East. Our curriculum spans across multiple disciplines and is complemented with case studies and a problem-based learning approach.

LKYSPP offers a global classroom of diverse experiences of students originating from 80 countries. Our alumni include ambassadors, senators, editors, social entrepreneurs, and private sector leaders, serving in Asia and beyond.

LKYSPP has an extensive network with other leading public policy schools in the world, for example, our strategic alliance with the Harvard Kennedy School. The school is also the first in Asia to join the prestigious Global Public Policy Network (GPPN).

Our faculty and staff are influencing the policy arena through a number of research centres sponsored by the LKYSPP including the Asia Competitiveness Institute, the Centre on Asia and Globalisation, the Institute of Policy Studies, and the Institute of Water Policy. Through these centres, students have the opportunity to collaborate with globally recognised experts in their field of interest.
