CENTRE FOR INTERNATIONAL & PROFESSIONAL EXPERIENCE

CIPE Newsletter

Greetings from CIPE,

The past week has seen a lot of traffic at CIPE – Week 7 students working on their visas, study abroad applicants discussing their plans, participants in the Summer Research Symposium going over their presentations, etc. It was a good reminder of the different kinds of advising we do.

With that in mind, I want to encourage you to take advantage of CIPE advising. You might consider scheduling a time to chat with your advisor when you are applying to a CIPE program. Every program lists what the evaluators are looking for in an application and your advisor is happy to talk to you about your submission and give you pointers. Many programs have a lot more applicants than awards we are able to offer but a great application raises your odds of success.

But there doesn't need to be a deadline looming to come see us. Talking through your long-term goals is another good reason to meet with your CIPE advisor or a specialized CIPE staff member. You might be wondering about graduate school or curious about what certain careers entail and how, over time, you can best position yourself for those. You'll be hearing from CIPE soon; mid-semester is a good time to start thinking about the skills and interests you are developing and deepening and your CIPE advisor can help.

Cheers,
Dean Trisha Craig
