

A Select List of Company and Industry Databases by NUS Libraries

Databases With Industry Data	
Database	Why this is recommended
ABI/Inform	This database focuses on industries and business sustainability. It contains company profiles mostly of North American companies.
BMI Research	BMI Research provides daily views, reports and strategic content, data and forecasts on various industries. Has briefings of actions by major companies in the industries it covers.
Business Source Premier	Has industry reports, country reports and risk reports of various countries, and SWOT analyses of major companies globally. Company profiles also available, although coverage outside of USA is not comprehensive.
Frost and Sullivan	Has market research on various technical and technology industries. Also provides market drivers and restraints and market opportunities. Broader Mega-Trend reports also give analyses on global regions.
Passport	Provides statistics, analysis, reports, and surveys on consumer product industries, some services, F&B packaging and ingredients. Use the Business Dynamics portion for various factors on doing business in various countries.
Patsnap	Provides global patent data, legal status, litigation and licensing data. You can create Patent Landscape using Patsnap, to get a visualization of trends and gaps in patents applied. Find companies specializing in particular technologies or industries by looking at patent assignees.

Databases with Company Data	
Database	Why this is recommended
Business Source Premier	Contains Company Profiles by Marketline and also SWOT analyses for major companies globally. Coverage is USA-centric, though.
D&B Business Browser	Global coverage of company financial data for private and public companies. Executive information for Asia-Pacific region. Corporate family tree (subsidiary and parent company statuses)
Factiva	Company Snapshots and company peer lists for major companies. Get new and archived news on companies from various news sources worldwide.
Frost & Sullivan	Gives market shares of major players in the industries it covers within Frost Perspectives and Industry Analysis reports. Highlights major developments by companies.
Orbis	Financial data for private and public companies worldwide (of up to 5 years where available) and annual reports (in Global Reports module). For financial data of public listed companies of up to past 30 years (where available), try Osiris instead.
